Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restriction

This application contains claims directed to the following patentably distinct species:

Species 1: the embodiment of figure 1

Species 2: the embodiment of figure 5

The species are independent or distinct because species 1 does not require a water tank connected to the vaporizer and the fuel tank.

Additional, further restriction is required for the modifications of Species 1 and 2:

Within Species 1:

Sub-species 1a: the first modification of first embodiment of figure 2

Sub-species 1b: the second modification of first embodiment of figure 4

The sub-species are independent or distinct because sub-species 1a does not require a pressurized tank upstream of the fuel tank and a variable conductance valve.

Within Species 2:

Sub-species 2a: the first modification of second embodiment of figure 6

Sub-species 2b: the second modification of second embodiment of figure 7

Sub-species 2c: the third modification of second embodiment of figure 8

The sub-species are independent or distinct because sub-species 2a does not require a variable conductance valve coupled to an upstream of the fuel tank and a pressurized tank coupled to an upstream side of valve and sub-species 2b does not

require a first oxygen supply unit located in place of the first pump and a second oxygen supply unit located in place of the second pump.

Applicant is advised that according to MPEP 811, "Time for Making Requirement", a restriction requirement may be made at any time before final action.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of

record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tony Chuo whose telephone number is (571) 272-0717. The examiner can normally be reached on M-F, 8:30AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
